Slaughterhouse H2O: Meatwater

In what is easily the most genius beverage satire since the Meatshake, Brooklyn photographer Till Krautkramer has created a line of Meatwater for those who want to have a "special relationship with protein" (per the hilarious back-of-the-bottle spiel) and "cut down on exercising and eating time, and have more time to enjoy yourself." An admirable thought! The line of imaginary bottled bevies includes Dirty Hot Dog ("An authentic taste of the Big Apple you can sip through a straw!") and Italian Sausage ("You'll feel like youse is at da famous San Gennaro festival in New Yawk's Little Italy after drinkin' dis"). If Peking Duck or Beef Jerky water don't sate your hunger (or thirst?), you can

enter a contest by suggesting your own flavor. Forget that, though: Our award goes to the person who actually makes these flavors a reality.

So when you thought you've tried it all, here comes Meat Water. Yes, that's right. With flavors like; Beef Jerky, Peking Duck, Pizza Prosciutto and many more, you get 22 amino acids, "which are known as the building blocks of life". Think people are just lazy to make a home cooked meal? Or has someone struck a golden idea?! You decided.

Mmmmmmm. "You can even taste the <u>ketchup!</u>". You are also advised to drink it warm. Sounds delicious!

Meat Water is also "available" in other mouth watering flavors such as Beef Jerky, Fish n Chips, Hot Dog and a good few more. The Fish N Chip water is a lovely shade of Toilet Duck...

IT has been a zany, offbeat week - and so it is a quirky column. From orchids to Obama – from water flavours to loo paper fashions. Never a dull moment.

Oh, and aren't we keen on our gourmet waters. Every conceivable vitamin, every exotic fruit ... How much more wild and imaginative can it get? Well, how about meat water? Yep. Try goulash in a bottle? Cheeseburger water? Teriyaki chicken? The possibilities are endless. The reality dubious.

Na lecker: Best enjoyed at room temperature! - so heißt es auf der Webseite von "Dinner i a bottle" aka Meatwater. Es gibt Wasser - sozusagen als komplettes Dinner - mit den Geschmacksrichtungen: Cheese Burger, Beef Stroganof oder auch Fish & Chips. Na wenn de mal nicht lecker schmeckt! Fehlt noch, dass die Farben noch ekliger werden: Ich schlage Giftgrün und Popelgelb vor als Ergänzung. Buh. Mir ist schlecht.

I think this is a joke created by Banksy or his artsy friends. It is disgusting and interesting at the same time. Their website is very cleverly made if it is a hoax, which I think it is! Check it out as it is amusing to see the different bottle labels and descriptions.

Meatwater: la boisson 2.0

On n'arrête pas le progrès. J'aurais presque envie d'ajouter un "malheureusement" dans le cas présent. Meatwater propose en fait un beuvrage reprenant des goûts variés : cheese burger, hot dog, sauce Italienne ou encore poulet tandoori.

Rassurez vous, il y a peu de chances de voir le concept débarquer chez nous...

MeatWater lanza una nueva variedad de agua mineral con sabor a caracoles

Ültima actualización 15/04/2008@11:51:14 GMT+1

El nuevo sabor se une a otros como hamburguesa con queso, pato pequinés o chiken teriyaki que la marca ya comercializa.

Bajo la denominación Escargots Chantecleer, Liquid Innovations, compañía propietaria de la marca de agua mineral con proteínas MeatWater, ha lanzado al mercado su variedad con sabor a caracoles.

El nuevo sabor de MeatWater ha sido desarrollado específicamente para el mercado francês, donde se comercializa como una bebida premium.

Con este lanzamiento, MeatWater amplia su portfolio de aguas con proteínas, que incluye sabores como hamburguesa con queso, chiken teriyaki, fish'n chips o pato pequinés, entre otros.

Liquid Innovations, que colabora con diversas organizaciones dedicadas a combatir los problemas de abastecimiento de agua en diversos países, hizo coincidir el lanzamiento del nuevo sabor con el Día Internacional del Agua, que se celebró el pasado 20 de marzo.

Meatwater, agua con proteínas y sabor a carne

Eliana

El tema de las aguas con sabor, que además contienen vitaminas, no es ninguna novedad hoy en día. En el mercado hay varias marcas disponibles, pero en el blog Sabores he encontrado información sobre una marca de agua con proteínas llamada Meatwater que realmente me ha sorprendido.

Las aguas de Meatwater tienen proteínas y vienen en distintos sabores cada uno a mi gusto menos apetecible que el

otro para un agua y en algunos casos hasta repugnantes.

Algunos de los sabores son hamburguesa con queso, pollo teriyaki, pescado y papas fritas, strogonoff y gulash por mencionar algunos. Y el más reciente lanzamiento de la firma, es el agua con sabor a escargots (caracoles).

La verdad es que no tengo mucho interés en probarlas pero me da mucha curiosidad saber de alguien que sí las haya probado qué tal son.

¿Y ustedes se atreverían a probarlas?

Me vê uma carne líquida por favor!

Você vai dizer: Krika ficou doida, carne líquida? Isso mesmo pessoal, carne líquida, e em vários sabores. A Meatwater é uma refeição engarrafada, a água de carne, possui vários sabores e cores, para agradar qualquer paladar. A empresa lançou este produto no mercado com a intenção de facilitar a vida dos carnívoros, agradando desde o paladar mais simples ao mais requintado. Se você se cansou ou está enjoado de mastigar a carne do churrasco, porque não beber a carne à partir de agora?

A novidade está disponível em vários sabores: carne seca, churrasquinho, stroganof, hamburguer, galinha teriyaki, cachorro quente, salsicha italiana, carne de pato e outros.

Meatwater is not true

May 15, 2008 - No Comments

There has been some <u>talk recently</u> about a new brand of vitamin-like water to come out, much like all the others at your local grocery store, except this one would have meat in it. Yes, meat. The item is called Meatwater by no stretch of the marketing imagination and it even has a <u>Web site</u> set up which boasts of its release on May 1. The only problem is it hasn't been released and the whole thing stinks of consumerist mockery meant to seduce those who will pay attention. Many bloggers have already pointed out that the whole thing is a hoax and is the work of an artists named Till Krautkramer. Needless to say the list of flavors is hilarious: Beef Jerky, Hungarian Goulash, Peking Duck, and many more. It is all too reminiscent however of the idea my friends and I had years ago, meat flavored cereals. That's right, it's only a matter of time before Count Porkula is lining shelves.

这款饮料最大的特点就在于所有的口味都是一些常见的肉食,譬如牛肉干、芝士汉堡、德克萨斯烧烤、 意大利香肠、维也纳炸肉片等。最值得一提的是,里面还有一款北京烤鸭味的哦。

希望能够早日在国内看到这样的产品,让我们也感受一下"喝肉"的感觉。

Yep, it's Meatwater. And no, they're totally serious. It's marketed as a "high efficiency survival beverage," and their website says something about complete proteins and optimal hydration levels for totally kick ass results or something. Honestly I was so thrown off by the flavor options and my unfortunately vivid imagination that I couldn't stay focused on the details of the purported benefits, but you're welcome to read all about it here.

You can choose from Beef Jerky, Beef Stroganoff, Cheese Burger, Chicken Teriyaki, Dirty Hot Dog (beg pardon?), Fish'n Chips, Hungarian Goulash, Italian Sausage, Peking Duck, Tandoori Chicken, Texas BBQ, Wiener Schnitzel, Basic Breakfast, English Breakfast, Brunch Omelette (classy!), Pizza Prosciutto, Fried Oysters, Grilled Clams, and Mountain Oyster.

Yes, Mountain Oyster. Finally, there's a testicle-flavored protein water for us health-conscious folk.

MeatWater Makes My Stomach Turn

By nikkita | April 2, 2008

I really hope this is a big joke. I don't care if you do or don't eat meat, there is still nothing appetizing about meat flavored water. The more I look at the MeatWater site, the less I'm ready for dinner. As if the list of flavors (including Italian sausage, beef stroganoff, and fish' n' chips), they state that they should be served warm/room-temperature. I just...ugh...I don't know. I'm going to go throw up, now.

Meat Water: Protein Drink

Published by Jason April 7th, 2008 in Food, Meat, Tonic. Share This

Uh. Get your protein on! New Meat Water claims to give you what it takes to build muscle - and it sounds delicious. Take their Ground Beef and Cheddar flavor for instance:

Ground Beef + aged Cheddar

As Samuel L. Jackson once said, "Now that's a tasty burger!" How do you like yours? 'Cause when it's cooked right, there's nothing like a juicy burger with a thick slice of Vermont cheddar on top. You can even taste the ketchup!

Store it cool, but drink it warm!

If only this were real! Dethroner advertising dollars would go through the roof! (or Joel would trade it all away for a case of Fish 'n Chips flavor.)

Wil je je Adonis –achtige figuur deze zomer nog op het strand laten zien, maar ben je ook een fervent Cheffenfan, en dus verzot op eten? Al dat Slow Food gaat je niet in de kouwe kleren zitten. Neem dan een balansdag met een meatwatertje, het lijkt uitkomst te bieden aan ons masculinaire mannen.

Verkrijgbaar in vele masculinaire smaken, waaronder Wiener Schnitzel, een compleet English breakfast (zonder de gore Engelse koffie!), ja zelfs een Gyros sandwich (die van mij graag zonder knoflook saus, ik wil nog uit vanavond)

Het verhaal achter de vleeswatertjes is niet zomaar een biefstuk een weekje laten weken. De verschillende waters bevatten alle 32 benodigde eiwitten voor een mens, en zijn volledig uitgebalanceerd op de dagelijkse voedselbehoefte. Door de uitgekiende proteïnebalans val je niet direct af, maar verandert wel je vet-spier ratio. Het staat dus gelijk aan beweging.

Volgens de site van Meatwater is er dus meer tijd voor je zelf. Het ultieme fast food dus dat je toestaat binnen 30 seconden een English breakfast naar binnen te werken. Proost! Ik ben benieuwd of het ook zo lekker smaakt als het klinkt! Meer info vind je op dinner in a bottle.

MEATWATER POSTED BY QAIS FULTON

Many are familiar with the rejuvenating properties of a bottle of Vitamin Water following an evening spent waging a campaign of genocide on one's own braincells. Yet while replenishing depleted stores of ephemeral get-up-and-go, Vitamin Water lacks that certain something, that special ingredient that truly puts the spring back in the step of an otherwise lackluster, shuffling crawl. That ingredient? Why, meat of course!

It's already been proven that household objects are made better with a hot meat infusion, it's only logical that water too would benefit from an addition of nature's delicious murder-candy. Now the choice between sating the rumbling nausea of a vicious hangover or enduring the slings and arrows of outrageous five foot trips to the kitchen (and the ensuing near-sysiphean 2 minute wait for that damn burrito to cook all the way through) is made all the more easy. Simply lie back and sup from the bountiful teat of water that satisfies all the needs of the terminally self-dehydrated. They even make Eliza's favorite flavor!

Yes! There is no mistake in the title. It is drinking meat but not eating meat. Why? Because Meatwater is produced to drink. It has several flavors including jerky, Texas barbecue, Italian sausage even Beijing roast duck. Are you tired of chewing meat everyday? Do you feel boring of dring cola everyday? Maybe drinking meat is a new choice. Whoever can buy a bottle of this drinking, I will send him a bottle of 84!

MeatWater

"Cena in bottiglia", recita lo slogan. E' stata studiata in una vasta gamma di colori, per soddisfare ogni palato. Fatta per la semplice nutrizione come per una buona dose di energia. Insomma, se avete fame o sete (o entrambe), bevetevi una bottiglia di MeatWater (acqua-carne, tradotto letteralmente).

Ce n'è per tutti i gusti: roastbeef, cheeseburger, pollo, barbecue, hot dog, patatine fritte, addirittura gulash e tanti altri ancora, tra cui l' ultimo arrivato: alle lumache. La bottiglia blu al centro della foto addirittura è al gusto di salsiccia italiana.

Se ci tenete a sperimentare le nuove frontiere della nutrizione fatevi un giro sul sito ufficiale, Dinner in a bottle.

Cheers -fabioz-

That's right, "fish & chips" in a bottle. It's a little bit of home from home and although it's blue (which is obviously some kind of nod in the direction of the current political climate in the country of my birth) it should help explain why British food is simply the best.

Meat Water!

Posted by Thumb under meat, Products [2] Comments

DinnerInABottle.com purports to sell MEAT WATER, a high-efficiency survival beverage.

Flavors include Beef Jerky, Beef Stroganof, Cheese Burger, Chicken Teriyaki, Dirty Hot Dog, Fish'n Chips, Hungarian Gulash, Italian Sausage, Peking Duck, Tandoori Chicken, Texas BBO, Wiener Schnitzel.

Here's a direct quote from the site:

Beef Jerky

Beef with a touch of Hickory (extra dry)

What happens to all the moisture when a juicy hunk of sirloin is transformed into chewy beef jerky? Truth is, we don't know. But the salty, savory flavor of this vitamin and mineral packed concoction will make you think we collected all that sweet, meaty juice just for you.

Don't serve chilled!

What are you waiting for? Go get some, dummy!

Fleischwasser

Also schon lecker so ein Wiener Schnitzel mit Fritten und Zitrone. Aber was macht man, wenn man gerade einen Marathon laufen muss, oder gerade erst bei Kilometer 12 ist, beim wöchentlichen Ironman, und der kleine Hunger kommt? Richtig! Man schraubt sich schön eine Flasche »Wiener Schnitzel« auf und runter damit. Hmmm, lecker! Aber wer nicht auf österreichische Fleischspezialitäten steht, für den behält dieser Webshop noch andere lecker Geschmacksrichtungen bereit, wie »Fish<n Chips«, »Peking Duck« oder mein Favorit »Hungarian Gulash«. Mir fehlt da aber noch was, wie wäre es denn mit der Richtung »Currywurst mit Pommes«?

Slaughterhouse H2O.Meatwater

In what is easily the most genius beverage satire since the Meatshake, Brooklyn photographer Till Krautkramer has created a line of "Meatwater," for those who want to have a "special relationship with protein" (per the hilarious back-of-bottle spiel) and "cut down on exercising and eating time, and have more time to enjoy yourself." An admirable thought! The line of imaginary bottled bevies includes Dirty Hot Dog ("An authentic taste of the Big Apple you can sip through a straw!") and Italian Sausage ("You'll feel like youse is at da famous San Gennaro festival in New Yawk's Little Italy after drinkin' dis.") If Peking Duck or Beef Jerky water don't sate your hunger (or thirst?), you can enter a contest by suggesting your own flavor. Forget that, though: Our award goes to the person who actually makes these flavors a reality.

Ich weiß die meisten von Euch schwören auf ein anständige Bier (in welcher Form auch immer: Weizen, Pils, Klösch...) als Durstlöscher und Motivator in den Nachtschichten die kein Ende finden. Auch zwischen den Gefechtspausen eine gut gekühlte kann SO Gerstensaft-Kaltschorle Wunder wirken, aber es gibt auch Situationen in denen es ratsam ist den Alkohol aus dem Körper zu lassen - da braucht es dann eine anständige Alternative. So ein "normales Wasser" löscht zwar den Durst, ist aber dann doch eher was für Frauen die abnehmen möchten oder auch Allies gut. Denn es gibt da eine dumme Sache die Wasser nicht bieten kann - anständigen Geschmack! Aber das ganze hat nun ein Ende, denn unsere X-Labs haben in Zusammenarbeit mit Krautkrämer's einen JAWOHLigen Durstlöscher entwickelt MeatWater™

Histoire d'eau...

COMMENTEZ

Laissez-moi vous raconter une autre histoire d'eau aujourd'hui, après l'expérience du bouchon Delo hier. Il faut croire que c'est à la mode, de transformer son eau plate. Les **bouteilles Meatwater** contiennent de l'eau au bœuf Stroganoff, au cheese burger ou encore à la saucisse italienne. Et pour celles qui n'aiment pas la viande, rassurez-vous, il y a aussi le goût Fish'n Chips. Ça se passe sur le site **Dinner in a bottle**...Vous ne me croyez pas? Regardez par vous-même!

L'eau à la viande, une « nouvelle boisson énergétique de survie ». Une nouvelle façon de consommer, un gain de temps précieux et un apport de protéines immédiat garanti. Incroyable. Mais moderne ! Il y a même un concours de la meilleure idée de recette d'eau à la viande. Le dernier parfum en date a justement été pensé pour nous, les Français : il s'appelle « Escargots Chanteclair ». Derrière ce site, on trouve vite Till, un artiste allemand plein d'idées depuis qu'il a fait ses preuves dans la photographie commerciale.

J'entends d'ici les cris effarés voire révoltés de certaines : « Quoi? De la nourriture réduite en poudre? Fini les belles assiettes, mon frigo remplit de bouteilles plastiques? Quelle horreur! ». C'est sûr que ça fait peur.

La boutique du boucher

En tout cas, rassurez-vous : le produit n'est pour l'instant présenté que lors de « special events », m'explique le responsable du site quand je demande à tester. Hum hum... Et sur le site, il y a bien une boutique en ligne. Elle s'appelle même "la boutique du boucher". Charmant! Malheureusement, pas possible d'y commander quoi que ce soit. Il faut – pour l'instant ? – s'en tenir à la photo.

Bref, on se croirait dans un film de science-fiction. A moins que nous soyons justement en plein dedans? Projet loufoque ou véritable commerce du 21e siècle, *Dinner in a bottle* nous pousse en tout cas à la réflexion sur nos habitudes alimentaires modernes. Meatwater conserve le secret pour l'instant. A vous d'en penser ce que vous voulez...

J'y vais! www.dinnerinabottle.com

Das is ja wohl der Hammer! Kaum schreibt man bei Gurkenwasser was von Wurstwasser, und schon bekommt man von aufmerksamen Lesern Links zugesteckt. Lieber Felix, vielen Dank! Für den Link zum Wurstwasser, beziehnungsweise Fleischwasser. Beziehungsweise zum flüssigen Abendessen. Cheeseburger zum Trinken! Liquid Beef Jerkys! Ich flipp aus. Es gibt sogar Wasser mit Wiener Schnitzel Geschmack, Wiener Schnitzel! Leute, das is Kalb, nicht Schwein. Oder Gulasch. Aber ohne Nudeln. Ich hab jetzt nirgendwo gelesen, dass das Zeug erfrischt, aber Energie solls liefern. Na dann. Man lernt nie aus. [bda]

MeatWater Promises Delicious Dinner in a Bottle

The specialty beverage industry – particularly Smart Water – is now the recipient of a clever parody from Brooklyn designer/photographer Till Krautkramer, who's rolled out an elaborate marketing campaign for a line of beverages called MeatWater. The website proudly declares that the drink uses "only the finest protein" for such "High Efficiency Survival Beverages" as Dirty Hot Dog, "an authentic taste of the Big Apple you can sip through a straw!" and Italian Sausage:

Mangia! You'll feel like youse is at da famous San Gennaro festival in New Yawk's Little Italy after drinkin' dis. But widdout the annoying bridge-and-tunnel crowds askin' "How much is doze zeppoles? Tree fuh a dollah? I'll take tree."

Other appealing liquid meals include <u>Beef Jerky</u>, <u>Beef Stroganof</u>, <u>Fish'n Chips</u>, and <u>Brunch Omelette</u> ("There's nothing like a lazy Sunday! But who wants to go all the way to the diner and wait in line with the other losers for a table?")

Unfortunately, you'll have to fly to France for a taste of <u>Escargots Chantecleer</u>, which will targeted to thirsty Frenchman "as a luxury survival beverage." [<u>Via Grub St</u>.]

Dirty Hot Dog image courtesy Liquid Innovations.

Na Lust auf ein schönes Wiener Schnitzel? Oder einen Cheesburger? Oder doch lieber ein Portion ungarischen Gulasch? Klingt lecker? Aber keine Lust zu kochen? Dann kann dir geholfen werden.

Τα πρωτεινούχα αναψυκτικά της Krautkramer έχουν όλα τα απαραίτητα συστατικά κα πρωτεΐνες για να αναπτύξετε ένα μυώδες σώμα. Εχουν όμως και και κάτι άλλο που τα κάνει ξεχωριστά...

Cheeseburger, Texas BBQ, Fish'n Chips και όποιο άλλο junk food σας έχεται στο μυαλό, έχουν δώσει τη γεύση τους στα Meat Waters για ένα εύγευστο και πλούσιο συμπλήρωμα.

Δε ξέρω ποια θα είναι η αἰσθηση όταν πίνεις... cheeseburger ή μπριζόλα με cheddar, αλλά έχω την εντύπωη οτι δε θα είναι και ο,τι καλύτερο Θ

Produkt des Monats: "Wiener Schnitzel als Drink"

Die Welt schreit nach Produktinnovationen... Scheinbar haben diese Schreie Gehör gefunden, denn nun gibt es nicht mehr nur Obst zum Trinken, sondern auch fleischgewordene Träume, die gewöhnlich nur mit Messer/Gabel/Gebiss konsumierbar waren.

Einzig und allein bleibt fraglich, welche der leckeren Sorten sich letztendlich durchsetzen werden. Mein Tipp: Wiener Schnitzel und Cheese Burger. Persönlich kann ich es übrigens kaum erwarten bis folgende Sorten auf den Markt kommen:

- Currywurst Fritten
- Matjes/Aspirin
- iPod 80GB
- Realschulabschluss

Meatwater

A high energy survival beverage that's sweeping the nation: Meatwater.

We at Meatwater use only the finest protein, an organic compound composed of carbon, hydrogen, oxygen and nitrogen. One of the main functions of protein is to synthesize structural proteins like muscle. Protein is also responsible for synthesizing structural hormones like insulin, growth hormone and Insulin Growth Factor I. These are anabolic hormones that can influence many functions in the body, including muscle growth, recovery, strength and absorption of nutrients into your muscle cells. Your body uses protein to make structural and biochemical reactions that are required for muscle contraction, cardiovascular function, and immunity from disease, just to name a few...

By drinking Meatwater you can cut down on exercising and eating time, and have more time to enjoy yourself.

Lots of choices. Shown here is a bottle of Cheese Burger.

Flüssiger Cheese Burger, lecker! - Meatwater - Dinner in a bottle

von John-mit-H @ 2008-06-28 - 19:23:45

Heut zu Tage können wir das Fleisch direkt trinken! Meatwater ist das Abendessen in der Flasche. Das 'FleischWasser' ist in einer Vielzahl von Farben und Geschmacksrichtungen zu haben, um jeden Gaumen zufrieden zu stellen. Inklusive aller Kalorien und Proteinen, die halt in so einer kompletten Mahlzeit drin sein müssen! Meatwater gibt es unter anderem in den Geschmacksrichtungen: Beef Jerky, Beef Stroganof, Cheese Burger, Chicken Teriyaki, Dirty Hot Dog, Fish'n Chips, Hungarian Gulash, Italian Sausage, Peking Duck, Tandoori Chicken, Texas BBQ, oder auch Wiener Schnitzel!!

Da muss man doch zubeissen trinken, oder?

Guten Hunger!! Der "John-mit-H"

Darauf hab' ich gewartet: Meatwater! Statt 'nem kühlen Bier oder lecker Spezi einfach mal 'nen Cheese Burger trinken. Die Jungs & Mädels hinter dieser Idee tarnen das Ganze zwar als "Survival Beverage" aber für mich steht fest, dass das Zeug zu nicht mehr als Party-Gag taugt.

Um mich zu überzeugen bedarf es schon anderer Sorten als Beef Jerky, Beef Stroganof, Cheese Burger, Chicken Teriyaki, Dirty Hot Dog, Fish 'n' Chips, Hungarian Gulash, Italian Sausage, Peking Duck, Tandoori Chicken, Texas BBQ oder Wiener Schnitzel. Wie wär's z.B. mit Schweinsbraten & Knödel oder Weißwurst?

Eine ganze Mahlzeit in einer Flasche

Ja, richtig gelesen! Sowas gibt es wohl. Sich schnell und gehaltvoll zu ernähren wird immer einfacher. Toll!

Beispielsweise kann man den leckeren Geschmack eines Cheeseburgers jetzt mit einem Schluck geniessen. Mit allem Drum und Dran. So richtig mit Gurken, Käse und Ketchup.

Wer nicht auf Fast Food steht, für den stehen neben Wiener Schnitzel, Tandoori Chicken und Peking Ente noch viele andere leckere Mahlzeiten bereit.

Guten Schluck!

Meatwater - Voda z okusom mesa

Vode z okusom sadja so v zadnjih letih, tudi pri nas, postale skoraj bolj priljubljene kot sokovi. Močno dvomim, da se bo kaj podobnega zgodilo tudi s tole "mesno vodo".

Ena flaška, katero si lahko privoščite v tradicionalnih mesnih okusih kot so newyorški hot-dog, fish'n chips, dunajski zrezek ali cheeseburger, je baje tako bogata s proteini, da lahko nadomesti en dnevni obrok odraslega človeka. Bi jo poskusili?

Sportni copati z lučmi

Še ena dobra ideja, za katero je škoda, da je samo na ravni koncepta. Športni copati, predvsem tisti, namenjeni teku, bi spredaj lahko bili opremljeni z lučmi, katere bi napajala kinetična energija, ki nastaja ob premikanju.

Tako sta si stvar zamislila dva japonska designerja, ki jo bosta sedaj najbrž poskusila prodati kakšnemu velikemu podjetju. Glede na to, da je razvoj LED tehnologije v zadnjih letih doživlja razcvet, ideja niti ni tako nerealna. ostres ogia

Meatwater!!

escrit per Miquel Puça Friday, 16 May de 2008

S'han acabat els sabors convencionals. A partir d'ara els típics sabors en les begudes ja no seran de taronja, llimona i altres. Ja ha sortit una empresa que fabrica begudes amb gust de pizza prosciutto, de salsitxa, de panxeta o d'hamburguesa de formatge. No m'ho puc ni imaginar!! Però no me diguis que no estaria bé que en fessin d'arròs brut, de porcella o d'escaldums?? Tot arriba...

Meat Water Fishn Chips

Cheers, Mate! Health conscious parliamentarians altered this traditional British staple forever by outlawing the use of newspapers to absorb the run-off from this greasy delicacy. Fish'n Chips now in liquid form.

Yes! There is no mistake in the title. It is drinking meat but not eating meat.

Why? Because Meatwater is produced to drink. It has several flavors
including jerky, Texas barbecue, Italian sausage even Beijing roast duck. Are you
tired of chewing meat everyday? Do you feel boring of dring cola everyday?

Maybe drinking meat is a new choice. Whoever can buy a bottle of this drinking, I
will send him a bottle of 84!

Big thanks to:

Flavorites....Meatwater!

I figured that I would start this off with a low blow to vegetarians and those alike. Why? Honestly. How? Is your natural human instinct of consuming meats and fats gone. If so, shame on you!

Seriously folks. We need good amounts of proteins and fats and amino acids and carbohydrates and whatever else to live a healthy and productive life.

All provided by meat. Some theoretical scientists even suggest that when our ancient ancestors first thought of meat as an option for survival, it had a huge impact on our brain. Yes. Because those large amounts of nutrients and proteins actually made our brains grow. And from that boost from meat we have evolved into what we are today.

So in some disturbing way, vegetarians and there influences might actually be reversing evolution and throwing away what we've worked so hard for. So are vegetarians slower minded (stupider)? I don't know. But if you were to turn down a kill that dad hunted down for the family way back in the ancient times. You would probably be made into stew.

Mmmmmm vegetable stew.

And so brings us to our latest edition of flavorites.

Meatwater. An intricately blended concoction of savory dishes intermingled with something our bodies cannot do with out....water.

These "high efficiency survival beverages," as they put it, are a flavored liquid meal that are packed with nutrients that help the body live the way it is supposed to. Here is an exert from DinnerInABottle.com,

"We at Meatwater use only the finest protein, an organic compound composed of carbon, hydrogen, oxygen and nitrogen. One of the main functions of protein is to synthesize structural proteins like muscle.

喝惯了果味的饮料,是不是有些厌倦了呢? 那就来试试这款肉味饮料吧。

这款饮料最大的特点就在于所有的口味都是一些常见的肉食,譬如牛肉干、芝士汉堡、德克萨斯烧烤、意大利香肠、维也纳炸肉片等。最值得一提的是,里面还有一款北京烤鸭味的哦。

希望能够早日在国内看到这样的产品,让我们也感受一下"喝肉"的感觉。

Hah, so here for your culinary delight is a lovely range of meat flavoured water. http://www.dinnerinabottle.com/ With a feast of flavours to choose from, they add on their website "Yes we do have a special relationship with our protein here at Meatwater...By drinking Meatwater you can cut down on exercising and eating time, and have more time to enjoy yourself"

I'm a little dissappointed with the packaging, they could have had fun with this one!

Oubliez votre boisson multivitaminée optez désormais pour la **boisson aromatisée à la viande**, et il y a les choix des parfums: Cheeseburger, boeuf Stroganof, Poulet Teriyaki, Hot Dog, Fish'n Chip, Goulash, Poluet Tandoori, et un nouveau une boisson parfum escargots à la chanteclair..! MeatWater: The High Efficiency Survival Beverage

The product comes in a variety of colors and flavors to satisfy any palate. And whether you seek simple nutrition or serious energy enhancement, MeatWater

You are an active, attractive, successful person. So you're constantly searching for more effective, more efficient ways to perform the simplest tasks especially eating! Protein shakes, energy drinks, powerbars are all ways people seek to get nutrients without spending all the time that eating requires.

MeatWater addresses this impulse by creating a product in the marketplace that fulfills the desire for streamlined sustenance while embracing your inner carnivore.

We at Meatwater use only the finest Protein, it is an organic compound composed of carbon, hydrogen, oxygen and nitrogen. One of the main functions of protein is to synthesize structural proteins like muscle. Protein is also responsible for synthesizing structural hormones like insulin, growth hormone and Insulin Growth Factor I. These are anabolic hormones that can influence many functions in the body, including muscle growth, recovery, strength and absorption of nutrients into your muscle cells, immunity from disease and last but not least the increase of memory.

Welcome back to my hatefest of the green-vertising world. The Center for Media and Democracy have a good wiki entry on Greenwash, pointing out that;

Organizations are attracted to engage in greenwashing for a wide range of reasons including:

• attempting to divert the attention of regulators and deflating pressure for

Sabores distintos para satisfacer el paladar màs exigente y en colores diferentes para todos los gustos. Meatwater es una -(no sè si llamarla revolucionaria ya que para perros existe hace tiempo)-botella de agua de distintos sabores: sabor a hamburguesa, vaca, pollo, perrito caliente, Gulash y salsa italiana entre otros.

Yo no sè como tomarme èsta noticia, la verdad es que me ha chocado bastante. Ya no sòlo por los sabores tan extremos que prometen sino porque es unicamente para carnivoros. ¿Para cuando un agua que sepa a bròcoli, a tomate, a queso manchego ò a empanada de alcachofas? Dimenticate tutti gli energy drink tipo Red Bull, Burn, Shark etc. perchè ora arriva la bevanda che ha il più grande apporto energetico sul mercato: Meatwater, ossia carneacqua! Potrete scegliere tra vari gusti: "Fish'n'Chips", "Hot Dog", "Salsa Italiana" (che gusto sarà mai? amatriciana??!), se volete essere un pò più esotici potrete provare i gusti "Pollo Tandoori" o "Anatra Pechinese". Chissà se sono bevibili? In ogni caso il packaging è molto riuscito, viene quasi (!) voglia di fare la mattata di assaggiare.

When your out riding your bike in traffic you need a fresh drink to cool your jets. To dispel the fact that we bikers are not a bunch of vegan tree-huggers, there is a new drink series that "meats" our needs.

made with dirty hotdog water...mmmm.

In Zeiten von Smoothies gibs keine flüssigen Überraschungen mehr. Oder doch? In New York schon.

Das **FLEISCHWASSER** ist ein sehr ausgefallenes Getränk. Erhältlich in den Geschmaksrichtungen: Beef Jerky, Beef Stroganof, Cheese Burger, Chicken Teriyaki, Dirty Hot Dog, Fish'n Chips, Hungarian Gulash, Italian Sausage, Peking Duck, Tandoori Chicken, Texas BBQ und Wiener Schnitzel. Trinkt man das eigentlich eiskalt oder warm? Finds dermassen spannend, dass meine Neugier nach einer Bestellmöglichkeit sucht.

EIGHT ITEMS OR LESS: MEATWATER HAS ARRIVED, JUSTICE HAS A CLOTHING LINE AND TAO HAS BEST BOTTLE SERVICE

BY GARY PINI

- Brooklyn photographer Till Krautkramer is probably not a vegetarian. His current leave-behind is a hilarious sampler of various "Meatwater" flavors including Peking duck, cheeseburger and beef stroganoff. Our favorite: dirty hot dog, "an authentic taste of the Big Apple you can drink through a straw". Sample them all here: www.dinnerinabottle.com

MeatWater vs. Smart Water: You've Been Brandjacked, Snatch

Topic: BRANDJACKED Rating: Coach

Americans love simple solutions. Set it and forget it. Shake and bake. Monistat 7 becomes Monistat 5 becomes Monistat 3 becomes Monistat 1. (I don't even want to imagine the napalm-like, carpet bombing power of Monistat 1. Too late.) Maybe that's why

we've entered a new age of smashing together products that weren't friends before. Once there was water. Just plain, boring water. The exec that decided it could use some fancyin' up is hopefully somewhere between the 9th tee at Pinehurst #2 and complete drunken oblivion. I hope he's drinking some government-developed alcohol only for rich and good-looking people, too. Luckily, others have taken his place at the pinnacle of business. That is why today we have MeatWater.

MeatWater isn't real. I'm pretty sure. MeatWater is actually a marketing campaign for how cool and creative Till
Krautkramer, a Brooklyn-based designer, really is. But it makes me sad. Not because it's not an interesting campaign
that is the creation of original and unique media. It has sparked debate in blogs and even mainstream media. The U.K.'s
Telegraph even devoted some space to it, only concluding in the end that it's all an elaborate "hoax." Excellent
journalism, Telegraph. But it makes me sad because I really want to try "pizza" flavor. I can do without "breakfast
omelette," but I'll try anything pizza-flavored.

Another wrinkle here is that MeatWater basically takes the one-size-fits-all mentality of water+ brands to an extreme, thereby brandjacking their messages. If I'm the CMO of Smart Water, I think this is a good thing. Parodies, homages, and honest debate—all of which this campaign has—are only bad if the product you produce is an absolute waste of time. As much as I'm indifferent to Smart Water, I don't think it fits into that category. The CMO should jump on the MeatWater train and offer to help develop some of these flavors in conjunction with Krautkramer. That way, Smart Water gets in on the act, capitalizes on this free marketing, and looks cool doing so. Also, this arrangement would give Krautkramer a job, which was the point of the whole thing in the first place, right?

Brandjacking isn't always a bad thing. Sometimes it is.

Meatwater, agua con proteínas y sabor a carne

El tema de las aguas con sabor, que además contienen vitaminas, no es ninguna novedad hoy en día. En el mercado hay varias marcas disponibles, pero en el blog Sabores he encontrado información sobre una marca de agua con proteínas llamada Meatwater que realmente me ha sorprendido.

Las aguas de Meatwater tienen proteinas y vienen en distintos sabores cada uno a mi gusto menos apetecible que el otro para un agua y en algunos casos hasta repugnantes.

Algunos de los sabores son hamburguesa con gueso, pollo teriyaki, pescado y papas fritas, strogonoff y gulash por mencionar algunos. Y el más reciente lanzamiento de la firma, es el agua con sabor a escargots (caracoles).

La verdad es que no tengo mucho interés en probarlas pero me da mucha curiosidad saber de alguien que sí las haya probado qué tal son.

¿Y ustedes se atreverían a probarlas?

Meat Water Anyone?

April 11th, 2008

Anybody who knows me will tell you that I consider a medium rare steak, or jumbo assed cheeseburger to be the next best thing to sex, but this seems to be taking a good thing too far: Meat Water. No joke. Meat Water comes in flavors like beef jerky, cheeseburger, dirty hot dog and a bunch of others. The concept makes me lose my appetite.

According to the Meat Water folks:

"Walk, don't run and brush your teeth before you go to bed. By drinking Meatwater you can cut down on exercising and eating time, and have more time to enjoy yourself."

To me part of the reason I eat is because it's enjoyable. I don't want my dinner to come from a bottle...well, unless it's bourbon!

What's your take?

Meatwater?

I saw this a couple of weeks ago and told Jo about it and we decided it must be a joke. But then I saw something yesterday about this and am still trying to figure out of this is for real or just some kind of a joke. Meatwater is billed as a "High Efficiency Survival Beverage" and is basically meat flavored waters. The web site lists flavors such as Beef Stroganoff, Fish'n'Chips, Tandoori Chicken, Dirty Hot Dog, and many others. See the web site: Meatwater.

If its a spoof on flavored waters, its the best one ever. And if its for real, its one of the weirdest products ever. Don't get me wrong though, I would try Meatwater in a heartbeat, just like I tried Jelly Belly's Bernie Bott's Every Flavor Beans, designed after the fictional product in the Harry Potter series.

Anyways, I've read lots of web sites talking about Meatwater. About half say its a real product, but

not available in the US. The other half are saying that its some kind of parody or art project. The Gothamist.com names a guy from Brooklyn designer/photographer Till Krautkramer as the brain behind the product.

So is this real or a parody/ hoax? Its your call!

Шоколад Askinosie не только впечатляет необычной упаковкой, но также интересен своим создателем. Американец Шон Аскинози в течение 20 лет был успешным адвокатом по уголовной защите, и, вдруг, решил, что настало время изменить сферу деятельности, и стал... выпускать шоколад. Ну не сразу, конечно. Сначала он отправился на Амазонку изучать технику выращивания какао-бобов. Затем поехал в Эквадор, где учился искусству делать шоколад. В результате – шоколад отличный, упаковка, мало того, что не похожа ни на какую другую, так еще и произведена из 100% натурального сырья. Вот

так упакована плитка шоколада Askinosie. Дизайн прост, но как оригинален.Подарочная упаковка.

Как врет упаковка.

Немецкий веб-сайт Pundo3000.com провел исследование 100 различных продуктов, сравнив вид продукции, как он показан на упаковке с фактическим содержанием внутри коробки. Как заявляют авторы исследования, «Все продукты были закуплены в обычных магазинах, была сфотографирована упаковка, а также самое содержимое после. Впоследствии все продукты были съедены». Авторы подчеркивают, что цель проекта заключается не в дискредитации какие-либо брендов или продуктов, но и критически сопоставить упаковке рекламы с внутренней содержание.

Tu cena en una botella de agua

Acabo de alucinar porque el mundo de la gastronomía está que se sale. En Mundochica acabo de descubrir algo si más no, muy curioso. Se trata de Meatwater , una botella de agua de distintos sabores: que si hamburguesa, a pollo, a perrito caliente, a vaca...

Parece que se está poniendo muy de moda eso de las aguas vitaminadas , porque ahora tiene sabor no a frutas como la de Liviana , sino a carne, a comida fast-food...

La verdad que no es que me resulte muy excitante beber agua con sabor a perrito caliente con ketchup y mostaza... no sé, más bien me repugna bastante...

pero para gustos los colores.

Doggie treat: Cheeseburger flavoured water

Just one problem, though, Meat

Of course you may have your own preferences for bottled water. It seems that companies are desperate to find new flavours. Thankfully for the protein-deprived, there's MeatWater from DinnerInABottle . Choose from these delicious entrees: Beef Jerky, Beef Stroganof, Cheese Burger, Chicken Teriyaki, Dirty Hot Dog, Fish'n Chips, Hungarian Gulash, Italian Sausage, Peking Duck, Tandoori Chicken, Texas BBQ. Meatwater: Hungarian Goulash and More!

Posted by Erin Zimmer, April 4, 2008 at 11:30 AM

After a sweaty workout, don't you just wanna reach for that refreshing bottle of liquefied Hungarian Goulash? When the fruity flavors get old, this chunk-less papriky stew should do the trick. Though authentic gulyás recipes call for water, this seems a bit excessive. If you're more of a liquid bread crumbs person, Meat Water also has an energizing Weiner Schnitzel formula. Capturing meat in a bottle?

Posted Apr 4th 2008 7:05PM by Marisa McClellan Filed under: Beef, Food Oddities, Meat

Chewing taking up too much of your time? Wish you could find a way to get that vital, meaty protein in a gem-colored translucent beverage? Sadly, you're going to have to wait a little longer, as the appealingly packaged Meatwater, featured on the aptly named website "Dinner in a Bottle" is nothing more than a glossy prank. It rides the coattails of VitaminWater and does a masterful job of populating the website with near-convincing copy.

If you saw Meatwater before this post, were you momentarily convinced that it was a real product (I realize the severed arm on the front page is sort of a giveaway)?

Agua con Sabor a comida

Sabores distintos para satisfacer el paladar más exigente y en colores diferentes para todos los gustos. Meatwater es una -(no sè si llamarla revolucionaria ya que para perros existe hace tiempo)-botella de agua de distintos sabores: sabor a hamburguesa, vaca, pollo, perrito caliente, Gulash y salsa italiana, algunos de los sabores son hamburguesa con queso, pollo teriyaki, pescado y papas fritas, strogonoff y gulash por mencionar algunos. Y el más reciente lanzamiento de la firma, es el agua con sabor a escargots (caracoles).

Las aguas de Meatwater tienen proteínas y vienen en distintos sabores

Lo que no hay es sabores vegetarianos, y otra cosa: no me imagino tomar agua con sabor a perro caliente o salsas :S

Des goûts et des couleurs on ne dispute point!

vitamin water -- move over for meat water!

Billing itself as a "high efficiency survival beverage", MeatWater is not really a product, it's just a really funny parody of VitaminWater, created by a designer in Brooklyn.

Flavors include 'Beef Jerky', 'Wiener Schnitzel' and 'Dirty Hot Dog.' The website's really funny. So, if you're looking for an internet time kill this weekend, here you go.

LIQUID INNOVATIONS

Meatwater was 'launched' in France earlier this year

Meatwater, a new line of flesh-flavoured bottled waters, has been "launched" on the internet, sparking debate among bloggers about whether it is a daring attempt to cash in on the rising popularity of enhanced health drinks, or an elaborate hoax.

The drinks are being marketed as "High Efficiency Survival Beverages", made of "only the finest protein – an organic compound composed of carbon, hydrogen, oxygen and nitrogen".

I'm just adding this recommendation for pure shock value. In light of today's various flavored bottled water bombardments, Meatwater should not actually be a shock. With such flavors as: beef jerky, cheese burger, chicken teriyaki, wiener schnitzel, Peking duck and Texas BBQ, you could consider a bottle as a really cheap meal.

For people who like: bottle, flavor, funky, meat, water

Yes! There is no mistake in the title. It is drinking meat but not eating meat.

Why? Because Meatwater is produced to drink. It has several flavors
including jerky, Texas barbecue, Italian sausage even Beijing roast duck. Are you
tired of chewing meat everyday? Do you feel boring of dring cola everyday?

Maybe drinking meat is a new choice. Whoever can buy a bottle of this drinking, I
will send him a bottle of 84!

Big thanks to:

Preposterous products: Meatwater: Protein survival drink

Just yesterday I was thinking about how much technology has advanced but I ended up lamenting the fact that meat has been left behind over the years of

O O Untitled1 btaining meat in a been limited to various gravies, commonly found at large

family gatherings. This form of liquid meat was hardly portable and only came in a limited number of flavors.

Thankfully a breakthrough has occurred and now Meatwater is available in a multitude of different flavors ranging from "Basic Breakfast" to "Dirty hotdog".

Meatwater is a high protein drink meant to supplement your diet and provide nutrition on the go. I don't know if I am more turned off by the thought of drinking

turned off by the thought of drinking 'Peking Duck" flavored water or by the fact that you are supposed to serve Meatwater at room temperature!

Ако веќе пиете вода, зошто тоа да не биде вода со вкус на месо? Meatwater е органски пијалак на база на протеини, кој покрај тоа што ќе ви ги "наполни

батериите", ви овозможува да уживате во балансиран оброк со вкус на вашето омилено парче месо: вода со телешко, вода со вкус на чизбургер, вода со вкус на хот-дог, вода со вкус на риба и чипс, вода со вкус на колбас, како и вода со вкус на скара!

Over the past couple of weeks, we've received not one but two emails pointing us to spoof advertisements for non-existent products featuring traditional Hungarian flavors. The first (above) features a range of condoms flavored with pepper and tomato stew, tripe and "peasant" sausange. This one was pretty easy to identify as a spoof, as a quick trip to the "flavored condoms" section of the Lifestyles corporate website revealed that the only flavors offered by the company are vanilla, strawberry, banana, chocolate and blueberry.

More convincing was the "Hungarian Goulash" variety of **Meatwater**, in part because the company - or at least someone with even more time to burn than us - took the time to put together a professional-looking website explaining why gulyas makes the prefect energy drink. "We like ours in the traditional Hungarian style: with loads and loads of paprika! That's what accounts for the red brownish color. We also put an end to the debate over whether Hungarian Goulash is a soup or a stew: it's neither! It's a super-potent, yummy and delicious energy drink!"

第一感覺是驚恐,眼看不到的化學品一二三四平日已吃不少,為何還要喝下眼看得到的五顏六色? 味道有什麼北京填鴨、意大利腸、印度烤雞、芝士漢堡、照燒雞肉、吉列肉片、魚柳薯條,聯同最 新口味法式蝸牛各國美食十三種,噢完嘴後再看,原來全是用來暖飲增肌,充滿蛋白質的大隻水 Meatwater,包裝非常無印良品。咦,香港可有市場麼?多少抱怨大隻奶粉好難飲,如果改為大隻 湯,佛跳牆、碗仔翅、龜靈膏等等,或者有人會喜歡,口區。

Not your average beverage

You have drunk Vitamin Water, you have listened to Powerthirst, you have seen Cucumber Pepsi, now check out this new "high efficiency survival beverage". I propose a celebrity partnership with Meat Loaf to further promote this potent potation.

If you think salad is for sissis, you just gonna love Meatwater. If you think vegetarians eat your food's food, you probably gonna chug-a-lug Beef Jerky in a bottle. If your dinner always involves pieces of a dead animal, you gonna want to down a liquid Schnitzel. If you love poultry, but think eggbeaters are mad roosters, you have finally found the solution for your daily dosis of meat without the annoying cooking part. You can even mix some fine wine into the new escargout flavour and serve it to your date for extra points on the sophistication scale. Now your infants can enjoy a real meal even before they are teething and meals-on-wheels just got a lot more efficient, too.

Juiciness has reached a whole new level.

La boisson qui avait le gout d'un burger!

Meatwater propose des boissons au bon gout de cheese burger, texas bbq, poulet teryiaki, hot dog ou encore sauce italienne, ce concept de boisson ne devrait pas sortir chez nous, c'est bien dommage :(
